JUSTERING AF NAKKESTØTTE

For at justere nakkestøtten skal du tage fat i bagsiden af nakkestøtten og trække fremad med begge hænder som vist på tegningen.

Træk IKKE fra nakkestøttens sider, da materialet kan gå i stykker.

For at justere nakkestøtten bagud skal du bruge en underarm til at bevæge nakkestøtten tilbage.

Advarsel:

Skub ikke i midten af nakkestøtten, da dette kan medføre, at puden falder sammen.
